

CHATBUDI ACADEMY

Chatbudi is a technology company based in The Nova Innovation Centre in UCD. Our mission is to provide an anytime anywhere hassle-free digital parenting solution.

Chatbudi Academy is our way of turning the useful knowledge and insights that we have gathered while building our technology, and using it to help kids, parents and teachers navigate the digital world safely. We have a tonne of in-house experience in this domain and we have developed the Chatbudi Academy to give parents, teachers and kids alike a crash course on safe internet use, with all the hints and tips you need to protect your child online.

Allow us to send one of our team to your school to host the Academy, at a time that suits your pupils, teachers and parents.

What Do We Cover?

For Kids: Classroom visits, approx. 15 mins each

Highlights include:

- ✓ What do we use the Internet for?
- ✓ The downsides and risks posed by the Internet, and how to deal with those – Stop, Block, Tell
- ✓ Online Gaming – the do's and don'ts
- ✓ Working together with parents and teachers to stay safe online
- ✓ Tips to use the Internet responsibly
- ✓ Q & A

For Teachers and Parents: Evening seminar, approx. 1 hour

Highlights include:

- ✓ What are kids using the Internet for?
- ✓ Understanding the hacks and workarounds your kids use
- ✓ The potential risks posed by the Internet, and how to communicate with your child about these
- ✓ Online Gaming – the latest trends, and how to protect your child from the potential threats
- ✓ How to encourage kids to communicate with you about their Internet use, and to work together on digital safety
- ✓ Understanding social media, messaging sites and apps
- ✓ Tips to protect your child and promote responsible Internet use
- ✓ Ask the experts Q & A

If you would like to hear more, simply complete this [form](#) and we will be in touch to give you more details and answer any questions you might have.

Chatbudi

Chatbudi is safe, and very simple to use communications app that allows kids to chat with their friends in a fun, but safe environment.

While kids enjoy chatting with their friends, creating their personalised avatar and sharing stickers, the parent or guardian can oversee their activity from their own device via the parent-zone. We provide the assurance that your child will not be exposed to ads, compromising content, location tracking or cookies, while still allowing them some degree of digital independence.

Download the Chatbudi app for your device today on the [Google Play](#) and [App Store](#), and don't forget to tell your friends!
